

2020-06-16 Asiantuntijaryhmän kokous / Koha specialist group meeting

Participants

Veli-Matti Häkkinen
Sirpa Janhonen
Esa-Pekka Keskitalo
Minna Kivinen, chair
Mia Kujala
Joonas Kylmälä (not present)
Johanna Miettunen
Christian Nelson

Andrii Vashchuk, development, National Library

Agenda

1. Status report of issues not related with version update

- Support cases related to earlier migration
 1. Situation not changed? Removing of Holding records still ongoing for National repository library and others are waiting?

	Aihe	Tärkeys	Tilanne
4369	3AMK varastotietueiden (holdingsien) poisto	Tärkeää korjata mahdollisimman pian	
4331	Diak: Varastotietueiden poisto	Tärkeä	
4273	Varastotietojen poistaminen monografiolta (Kansallisarkisto)	Tärkeä	
4269	[Xamk] Holding-tietueiden poistaminen	Tärkeää korjata mahdollisimman pian	
4206	Tritionia: Monografioiden varastotietueiden poisto	Tärkeä korjata mahdollisimman pian	
4150	Siivous VK: Varastotietojen poistaminen vanhoilta monografiolta	Tärkeä korjata mahdollisimman pian	Työn alla

- YSO conversion is still missing for some libraries
 - [Tilannekatsaus](#)/Status
- Bug fixes
 - Melinda low - tag problem still waiting for Koha updates for libraries
 - Koha updated for libraries on week 24, still waiting for Melinda to turn low tag removal on
 - Other bug fixes ongoing or bugs found
 - No new significant bugs found

2. Version update

Update schedule is found on KIWI -page [Update schedule and progress tracking](#)

1. Status report:

- a. Koha3 test environment has the latest improvements:
 - i. Handling of holding -records
 - ii. Circulation rules with ccode and shelving location
 - iii. Edition information added to holds to pull list for each biblio
 - iv. Anonymized hold identifier
 1. Test again
 - v. Finna view with harvesting, but no availability information or customer functionalities yet.
- b. HAMK test environment (srv1) updated June 12th, API plugins installed. Finna-view and handling of Holding records still missing
- c. XAMK test environment (srv2) ready June 12th, Finna-view and handling of Holdings still missing

2. GDPR requirements - logging all access to patron personal information

- a. In Koha-Suomi version all access to patron personal information is logged. In community version there is only logged changes to patron information. In community version there are possibilities to reduce information of patrons to show on different views and there are permission settings for allowing to see/modify patron information.
 - i. Discussion topic: how vital is it to log all access to patron information in perspective to GDPR. Should we develop logging and if so, on what level
 1. Logging of access to personal information is needed in order to monitor, who has had access to personal information
 2. About level of logging

- a. Very wide logging makes log-files hard to use
 - b. Minimal logging might leave out actions that ought to be monitored
- ii. More information of viewing patron information is gathered here [Viewing of patron information](#). There is also a list of views showing patron information (can be used when deciding level of logging)
- iii. There is already one bug report regarding to this in bugzilla https://bugs.koha-community.org/bugzilla3/show_bug.cgi?id=25673.
- b. **Summary of the discussion:**
 - i. It is vital to be able to show that personal information is handled with care in library system
 - ii. Logging is important
 - iii. About level of logging: log everything (not affecting to performance to add actions on log files), make effort how to report from logs
 - iv. Low priority for this task: Logging access to patron information. Develop when more important tasks are done. Have discussion with Koha community.

3. Status of development tasks on Update schedule

- a. Development tasks are listed on KIWI -page [Update schedule and progress tracking](#). All development tasks are numbered on list so that it is easier to refer to each task.
 - Development tasks prioritized on the meeting and priorities are found on update schedule -page

3. Other issues

- Are there jobs running on test environment - gathering fees, expiring holds that have not picked up in time, LOST (long overdue)?

4. Next meeting

Next meeting is on Tuesday August 4th at 13-14.30. Pilot libraries has been invited to join the meetings in autumn.
